

2024-2025 ANNUAL REPORT

IGNITING PASSIONS.

UNLOCKING POTENTIAL.

TGR FOUNDATION

“ I didn’t start the Foundation to produce golfers, to hit golf balls. I created the Foundation to create the greatest humans possible.”

- Tiger Woods

FROM OUR FOUNDER

Growing up, the values instilled by my parents were always to put family and education first. I still live by that principle today and believe it is the model for how we create positive impact in the lives of students. Through our TGR Learning Labs and Earl Woods Scholar Program, we are providing young people with access to education and support from a caring community of staff, mentors and partners, all which lead to generational change.

A handwritten signature in white ink, which appears to be "Tiger Woods", set against the dark blue background.

01

EXECUTIVE SUMMARY

LETTER FROM THE CEO

2024 – 2025 was a transformational year for TGR Foundation. From expanding our educational programming to extending our footprint on the East Coast, we made great progress toward Tiger's vision of empowering more students through education. We celebrated the opening of our second TGR Learning Lab in West Philadelphia. We also announced exciting new partnerships with Augusta National Golf Club to bring a Learning Lab to Augusta, Georgia and with Liberty National Foundation to create an endowed cohort of Earl Woods Scholars in the New York and New Jersey region. Our flagship Learning Lab in Anaheim, California revitalized its STEAM educational enrichment and golf programs, and we piloted our new teen career readiness strategy at both Labs with positive early outcomes. In total, we saw an 86% increase in total program participants. All of this tremendous growth and impact would not have been possible without the incredible support from our community. Thank you for supporting our mission, believing in the power of education and investing in the next generation.

Cyndi Court

IGNITING PASSIONS THROUGH **TGR LEARNING LABS**

TIGER’S VISION

TGR Learning Labs were created from Tiger Woods’ vision to create a safe place for students to “learn, grow and chase after their dreams.” TGR Learning Labs provide opportunities, experiences and mentors that help students from under-resourced communities find their passions and develop a plan for their future. Since opening his flagship campus in Anaheim, California in 2006, TGR Learning Labs have served more than 217,000 students through innovative educational programs, empowering them with the knowledge, tools and confidence needed to unlock their unlimited potential.

“ It’s important to me to be able to build a place that is safe and feels like home. The Learning Labs are innovative spaces where kids can attend and call it their own. We provide the programs and support, but it’s their home.”

-Tiger Woods

TGR LEARNING LAB ANAHEIM

The TGR Learning Lab Anaheim completed its 19th year serving the local community, offering students in grades 5–12 new and enhanced expanded learning programs, community events and college and career readiness learning opportunities. Through our strong partnerships with local school districts and businesses, the Learning Lab provides vital resources for students across the city and surrounding areas, where the demand for safe, high-quality learning opportunities beyond the classroom continues to grow.

“ TGR Learning Lab programs help my son discover what he likes and what his passions are. That's important for him. We feel like the Learning Lab is helping him and everyone there loves him.”

-Fidel Hernandez, parent of TGR Learning Lab Anaheim member

TGR LEARNING LAB PHILADELPHIA

On April 1, 2025, the Smilow Woodland TGR Learning Lab first welcomed students inside the building for a soft opening. The 30,000-square-foot facility was built in partnership with Cobbs Creek Foundation and capital campaign lead donors, the Smilow Foundation and the Woodland family. Since opening, the Learning Lab has provided thousands of first- through 12th-grade students in Philadelphia a wide range of educational offerings, including tutoring, school-day field trips, after-school classes and academic support, along with college and career readiness resources.

03

UNLOCKING POTENTIAL THROUGH EDUCATION PROGRAMS

PARTNERSHIPS WITH SCHOOLS

Through strong partnerships with local school districts, our students receive access to learning experiences that build on what they are learning in the classroom.

SCHOOL DAY FIELD TRIPS

Our TGR Learning Labs provide high-quality one-day and weeklong field trips for fifth- through 12th-graders throughout the school year. This program allows students to experience hands-on, project-based STEAM learning to expand their skills and provide exposure to new subjects and career possibilities. Strong partnerships with local school districts provide exposure to new career possibilities in subjects such as forensic science, marine biology, digital photography, food chemistry and more.

FROM ANAHEIM-AREA SCHOOLS

EDUCATOR PROFESSIONAL LEARNING

Empowering educators is a critical component of how we expand our mission to empower students to pursue their passions through education. Throughout the school year, we invest in educators with a variety of offerings to equip them with the skills, tools and support needed to prepare their students for success. These programs are offered nationally through virtual workshops, in addition to more intensive sessions at our local Learning Labs including conferences, symposiums and more.

DoD STEM AMBASSADOR PROGRAM

For the fifth consecutive year, we facilitated the U.S. Department of Defense STEM Ambassador program, an intensive year-long professional development program that prepares educators with skills to be STEM-powered leaders in their schools and industry.

“ I’m so thrilled to join the DoD STEM Ambassador Program in partnership with TGR Foundation because, as a K-8 Math Instructional Coach in West Philadelphia, I’m passionate about creating joyful and accessible STEAM learning experiences that can inspire students and educators alike. This program aligns perfectly with my dedication to fostering hands-on STEAM resources that both engage and empower learners.”

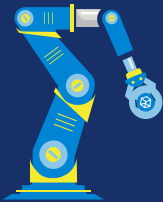

-Cat Brandon, Educator

STEM AMBASSADORS
WERE SERVED

OUT OF SCHOOL LEARNING

TGR Learning Labs ensure learning isn't limited to school or class hours. We provide a wide variety of offerings to middle and high school students during after-school hours, evenings and weekends, each designed to engage students in hands-on learning as they discover, explore and prepare for their future.

STEAM EDUCATION

Through our education programs, local students in our Learning Lab communities explored a wide variety of subjects, including science, technology, engineering, arts and mathematics (STEAM) and how they are integrated in school and life. From early elementary programs helping Philadelphia families learn math through games to esports tournaments, career panels and a STEAM Carnival, our programs helped students experience the joy of learning.

ENHANCING OUR STEAM PROGRAMMING

During the 2024 - 2025 academic year, our TGR Learning Labs introduced several new program offerings and special events to reach more students. STEAM-based clubs and teams allowed high school students to explore subjects aligned with their interests, while studios provided an intensive real-world learning experience aligned with career opportunities.

IMPACT SPOTLIGHT: Esports

Expanding opportunities for young Esports enthusiasts, the TGR Learning Lab Anaheim united students in a safe environment on Friday nights throughout the school year for Esports tournaments, allowing students to merge competition with technical skills learned in our after-school classes. In addition to the competitions, students also had an opportunity to visit 2K and learn from professionals during our inaugural summer Career Explorer Academy.

GOLF

Our Junior Golf program provided opportunities for aspiring and seasoned student-athletes to learn and grow their golf skills through a variety of programming, from after-school classes to Saturday workshops and clinics. A new Girls in Golf clinic fostered growth and peer mentorship through a unique golf experience led by current female high-school and college golfers.

CAREER & COLLEGE READINESS

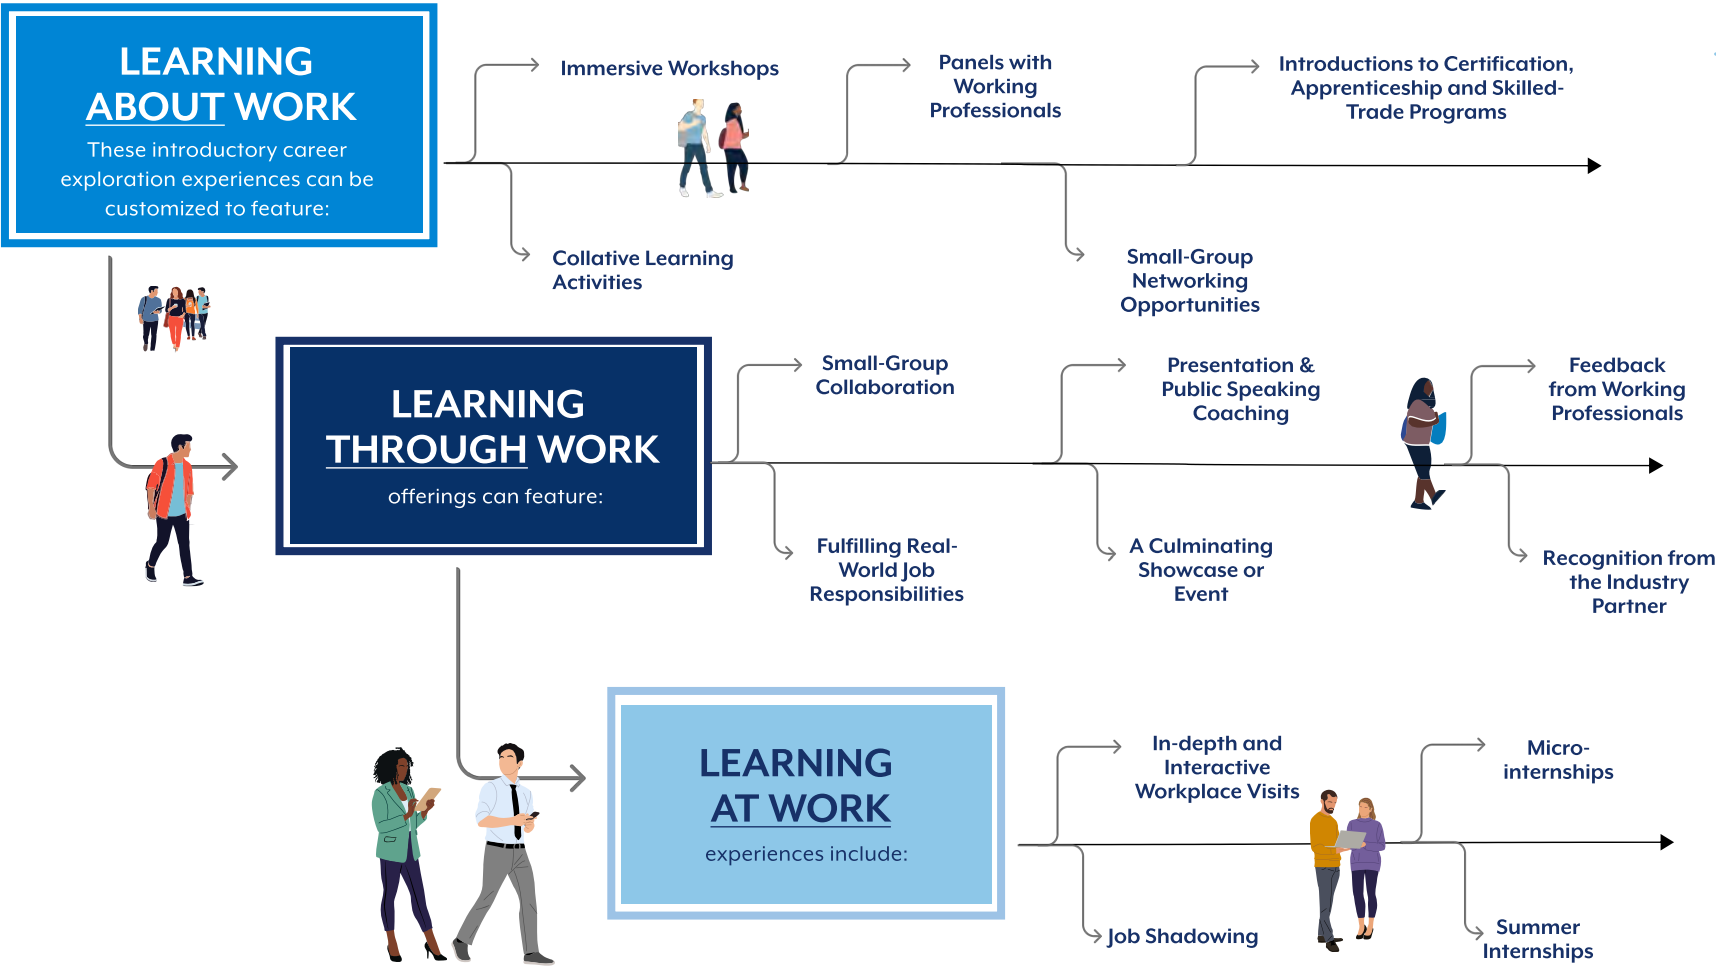

Through our career and college readiness programs, students are empowered with the knowledge, tools and experiences needed to pursue in-demand STEAM-based careers, explore college options and be prepared for their future.

TEEN CAREER READINESS STRATEGY

From the classroom to the real world, our Teen Career Readiness Strategy ensures students are prepared for success. Through opportunities to learn about work in classes and workshops, through work with partners who build their proficiencies and portfolios and at work through internships and job-shadowing experiences, students progressed toward impactful careers aligned with their interests.

PARTNER SPOTLIGHT

In partnership with Providence, students interested in careers in health care participated in our 2nd annual student showcase at the TGR Learning Lab Anaheim. During the event, they explored various careers in health care and completed a community health needs assessment alongside Providence professionals. Each team developed potential solutions and presented to a panel of judges, with the winning team receiving a private tour of the Providence St. Jude Medical Center.

“It’s important for students to realize how much they are needed in the health care workforce and that there are many ways to get there. The synergy between TGR Foundation and Providence can and should be replicated so that other Orange County organizations or major employers can invest in and contribute to a pipeline of the future health care workforce.”

-Cecilia Bustamante Pixa, senior director of community health, Providence

COLLEGE AND CAREER BOUND ACADEMY

College and Career Bound Academy expanded opportunities for students across three regions and all high school grade levels to explore college and career possibilities aligned with their passions and goals. Previously limited to high school juniors and seniors, the expanded program allowed younger students to begin exploring the opportunities and processes of higher education, equipping them with a clear roadmap for their high school career as they prepare for the future.

“ College Bound Academy has been nothing but beneficial for me. My biggest concern entering my last year of high school was how I was going to be able to pay for college. After a year of applying, I was able to win \$41,710 in outside scholarships and \$62,710 in total gift aid for this year. I owe my success to the help of the TGR Learning Lab community.”

-Samuel | Valencia High School

EARL WOODS SCHOLAR PROGRAM

The Earl Woods Scholar Program continued to support students on their path to college graduation and thriving careers. With 94 students attending universities across the country, the support from TGR Foundation staff, dedicated mentors and partners was critical to their success.

“ The Earl Woods Scholar Program and TGR Foundation have played a significant role in my journey. As a first-generation Mexican-American, the world of engineering was completely new to me. Their support has allowed me to pursue opportunities that might have otherwise been out of reach.”

IMPACT SPOTLIGHT

One of the hallmarks of the Earl Woods Scholar Program is our annual Winter Workshop. This three-day event brings all of our active scholars together to build relationships with each other and our staff while gaining meaningful learning experiences. Featuring sessions from building professional portfolios and a growth mindset to interactive mock interviews with industry professionals, each scholar builds tangible skills and confidence needed to thrive.

04

IGNITING PASSIONS THROUGH EXPANSION

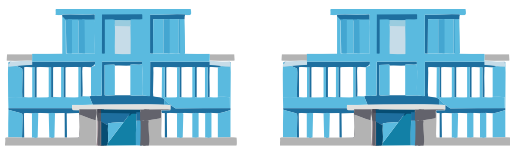

EXPANDING TIGER'S VISION

The mission of TGR Foundation is simple yet imperative: to empower students to pursue their passions through education. Built from Tiger's belief in the power of education and the importance of supporting those in need, TGR Foundation has positively impacted the lives of more than 217,000 young people through its TGR Learning Labs since 2006.

Now, as we enter our 30th anniversary year in 2026, Tiger's vision is to expand our reach to serve more students from under-resourced communities by providing safe spaces and inspiring programs that help them learn, grow and chase their dreams. Together, we will provide innovative STEAM educational enrichment and career-connected learning programs that help students discover their passions and unlock their unlimited potential, preparing them for success in high-demand careers of the future.

TGR LEARNING LABS NATIONAL EXPANSION

TGR LEARNING LAB LOS ANGELES
OPENING EARLY 2027

TGR Foundation’s third Learning Lab will open doors of opportunity for Los Angeles students in 2027 at the new Lulu’s Place campus. In partnership with the Kimmelman Family Foundation and the United States Tennis Association, Lulu’s Place will be a transformational center for students and families in the community, providing academic, wellness and athletic programs.

TGR Foundation has begun pre-launch programming in the community. We delivered mobile STEAM programs to middle and high schools students at seven area schools during the 2024 - 2025 academic year. During the summer, we provided intensive learning experiences to local high school students and educators.

TGR LEARNING LAB AUGUSTA OPENING 2028

On April 7, 2025, Tiger Woods and Augusta National Golf Club Chairman Fred Ridley announced plans to bring a TGR Learning Lab to Augusta, Ga. Set to open in 2028, the new TGR Learning Lab Augusta will provide valuable educational programs, real-world learning experiences and opportunities to students from under-resourced communities throughout the Augusta region.

EXPANSION SPOTLIGHT

“ This is an important milestone for Augusta and deepens the connection our community has with one of our greatest champions, Tiger Woods. We are thankful to partner with TGR Foundation and jointly invest in the Augusta community. The TGR Learning Lab Augusta reflects our shared interest in increasing access to high-quality programming and impacting the next generation in a tangible way.”

-Fred Ridley, Chairman of Augusta National Golf Club

EARL WOODS SCHOLAR PROGRAM EXPANSION

The Liberty National Foundation announced a \$1.2 million gift to fund a cohort of five scholars in the Earl Woods Scholar Program, selected annually from the New York–New Jersey region beginning in 2025. The endowment ensures the Liberty National Foundation cohort is funded in perpetuity.

EXPANSION SPOTLIGHT

“ We are thrilled to announce this new partnership with TGR Foundation. This is what it’s all about, helping the next generation find their footing and doing what we can to ensure they are successful in whatever it is they decide to do with their futures.”

-Dan Fireman, Liberty National Foundation Executive Chairman and co-founder of Liberty National Golf Club

OUTCOME MEASUREMENT IMPROVEMENTS

To better understand and report on the impact of our programs, we made significant enhancements to our data collection and analysis processes in 2024 – 2025. All surveys now directly align with the TGR Learning Lab theory of change, linking the outcomes from our programming to the broader impact we aim to achieve.

10,000⁺ SURVEYS COMPLETED
ACROSS OUR PROGRAMS

91% COMPLETION RATE

IMPACT SPOTLIGHT

With guidance from our partner Stand Together Foundation, who are leaders in customer-first measurement, quarterly sessions with Learning Lab staff were held to discuss the latest outcomes. These reviews allowed our team to dynamically refine programming throughout the academic year to better meet the needs of participants.

EXPANDED PARTNERSHIPS

For third year, Genesis provided hands-on learning experiences to TGR Learning Lab Anaheim students interested in careers in the automotive industry. From visits to their design lab in California to a STEM vehicle challenge event for students at the Learning Lab, students were able to gain valuable skills. In 2025, Genesis expanded its partnership to the TGR Learning Lab Philadelphia, delivering its STEM vehicle challenge to its members over the summer.

LINCOLN FINANCIAL FOUNDATION

In collaboration with our partners at Cobbs Creek Foundation, Lincoln Financial Foundation will support the development of TGR Foundation's new financial wellness program, which will be piloted during the 2025-2026 academic year at the TGR Learning Lab Philadelphia.

EVENT IMPACT SPOTLIGHT

CAREER-CONNECTED LEARNING

TGR Learning Lab Anaheim students received an incredible career-connected learning experience at the 2025 Genesis Invitational. Students in the multimedia program participated in a behind-the-scenes experience filled with real-world applications. From touring the media center and meeting with golf journalists to learning from professional videographers and photographers, each student learned firsthand what goes into producing content and coverage of a live sporting event.

COMMUNITY SUPPORT

TGR Foundation provides a community of support to all students and educators served. Our staff is a caring group of adults committed to our mission of empowering students through education. From a warm greeting by name as they enter a TGR Learning Lab to lending all aspects of support to our scholars as they navigate college, TGR Foundation is committed to providing a nurturing environment.

513 TOTAL VOLUNTEERS
AT OUR TGR LEARNING LABS

VOLUNTEERISM

From administration to tutoring and mentorship, our dedicated volunteers show up with warm smiles and helping hands, fostering a warm and welcoming environment. Students are surrounded by a caring community committed to their success as they participate in our programs at TGR Learning Labs, on their school campuses or in our local communities.

MENTORSHIP

Mentorship is a core component to the Earl Woods Scholar Program. Each Scholar is paired with a mentor for the course of their collegiate journey, providing advocacy, career coaching, personal care and life-changing support through college and beyond.

MENTOR SPOTLIGHT

“ Growing up I didn't have anyone around me that went to college. I didn't have anyone who could guide me through college. Being a mentor gives me an opportunity to pay it forward and help someone else.”
